AT A GLANCE...

- The Complete Metal Working Solution – Intec Laser Services is a well established Sub-contract Laser Cutting and Sheet Metal Company located in the heart of the Midlands.
- Intec Laser Services employ 33 staff and are committed to supporting their staff with wellbeing.
- As a result of many years of experience in the manufacturing arena and their continuous investment in the latest technology and production techniques, they have gained the knowledge and equipment to rival most sheet metal companies in the UK.

Q1. WHY IS STAFF WELLBEING A FOCUS FOR YOU AND WHAT MADE YOU DECIDE TO OFFER A WELLBEING SESSION FROM SMILE BOX?

I think staff wellbeing is one of the most important things a business could encourage. You never know when people are potentially going through something and may need support but do not want to show it.

Q2. HOW DO YOU FEEL THE WELLBING SESSION WAS RECEIVED BY YOUR TEAM?

The feedback from the team was very positive and we have been thanked by several of the staff for putting on the session.

Q3. HOW LIKELY ARE YOU TO USE SMILE BOX IN THE FUTURE OR RECOMMEND THEM TO OTHERS?

I would like to hold these events on multiple sites across our business and would highly recommend Smile Box to deliver them.

I would recommend this session not only for fantastic content and organised delivery, but as a chance to learn, help and support your team when dealing with difficult situations.

The added bonus of team bonding and allowing people to come out of their shell outside of a work environment is great!
